

PM to launch online agriculture market platform

NEW DELHI: Prime Minister Narendra Modi will launch an online national agricultural products market platform that will integrate 585 wholesale markets across India on Thursday. The aim is to provide more options for farmers to sell their produce and increase their income. "The Prime Minister will launch the e-platform for marketing of agri products on April 14. It will roll out to 200 mandis by September this year," agriculture minister Radha Mohan Singh said in new Delhi on Tuesday. **PTI**
